

## Intervention Questionnaire

Can Conditional Transfer Reduce Crop Residue Burning and Improve Child Health?

Seema Jayachandran (Northwestern University), Namrata Kala (MIT Sloan School of Management), Kelsey Jack (UC Santa Barbara), Rohini Pande (Yale University)

Field	Question	Answer	
surveyor_code <i>(required)</i>	A2: Surveyor: Enter the allotted surveyor code		
surveyor_name_confirm <i>(required)</i>	A3: Surveyor: Please confirm your name: [surveyor_name]	1	Correct
		2	Incorrect
note_surveyor <i>(required)</i>	Surveyor: Enter the correct code <i>Question relevant when: selected( \${surveyor_name} , '2')</i>		
resp_id <i>(required)</i>	A4: Surveyor: Enter respondent ID.		
resp_id_reenter <i>(required)</i>	A5: Surveyor: Re-enter respondent ID.		
a_hhid <i>(required)</i>	A6: Surveyor: Enter Household ID.		
district_confirm <i>(required)</i>	A7: Surveyor: Is the district name [district_calc]? <i>Question relevant when: \${resp_id} = \${resp_id_reenter}</i>	1	Yes
		2	No
village_confirm <i>(required)</i>	A8: Surveyor: Is the village name [village_calc]? <i>Question relevant when: \${district_confirm} = 1</i>	1	Yes
		2	No
hhfound <i>(required)</i>	Surveyor: Have you reached [respondent_name_list]'s home?	1	Yes
		2	Could not locate HH
couldnotfind			
couldntfindhh_note	Surveyor: Try again later and mark this on your tracking sheet for revisit <i>Question relevant when: \${hhfound} = 2</i>		
q0a2 <i>(required)</i>	Is this a revisit ?	1	Yes
		2	No
q0a3 <i>(required)</i>	HH Status <i>Question relevant when: \${hhfound} = 1</i>	1	1. House is open, adult is available

Field	Question	Answer	
		2	2. House is open but no adult is available
		3	3. House is open, but adult refused to answer
		4	4. House is closed
q0a3_note	Talk to your supervisor about what to do now <i>Question relevant when: \${q0a3} = 3</i>		
notavailable <i>Group relevant when: ( \${q0a3} = 2 or \${q0a3} = 4) and \${q0a2} = 2</i>			
q0a4 <i>(required)</i>	Surveyor: Please ask a neighbour about the household. Did you find a neighbour? <i>Question relevant when: \${q0a3} = 2 or \${q0a3} = 4</i>	1	Yes
		2	No
q0a41 <i>(required)</i>	Surveyor: IWill the household adult return before the time allotted to you in the village? <i>Question relevant when: \${q0a4} = 1</i>	1	Yes
		2	No
revisit_note	Surveyor: Mark this on your tracking sheet for revisit <i>Question relevant when: \${q0a41} = 1</i>		
q0a42_2_note	Surveyor: End survey and try again within your allotted time <i>Question relevant when: \${q0a4} = 2</i>		
respondentname_check <i>(required)</i>	Hello, my name is [surveyor_name]. Is there a [respondent_name_list] in your HH? <i>Question relevant when: \${q0a3} = 1</i>	1	Yes
		2	No
correct_respondent <i>Group relevant when: \${q0a3} = 1 and \${respondentname_check} = 2</i>			
note_respondentwho	Surveyor: find out correct name of respondent. Ensure that all other details provided match and that this house was surveyed by the baseline team.		
respondent_who <i>(required)</i>	What is the correct name of the respondent?		

Field	Question	Answer		
respcorrect_available (required)	Is [respondent_who] available to meet within the time allotted to you in the village?	1	Yes	
		2	No	
		3	Will be available later	
note1_respcorrect_available	Surveyor: Try again later and mark this on your tracking sheet for revisit Question relevant when: \${respcorrect_available} =3			
note2_respcorrect_available	Surveyor: Go to next HH Question relevant when: \${respcorrect_available} =2			
resp_available (required)	Is [respondent_name_list] available to meet within the time allotted to you in the village? Question relevant when: \${q0a3} =1 and \${respondentname_check} =1	1	Yes	
		2	No	
		3	Will be available later	
note1_resp_available	Surveyor: Try again later and mark this on your tracking sheet for revisit Question relevant when: \${resp_available} =3			
note2_resp_available	Surveyor: Go to next HH Question relevant when: \${resp_available} =2			
respondent_available Group relevant when: \${resp_available} =1 or \${respcorrect_available} =1				
resp_name_yn	Surveyor: Once you are face to face with the respondent, confirm the correct name with them.			
plot_harvested (required)	Have you harvested any of your paddy plots yet?	1	Yes	
		2	No	
bank_account	Do you or any other family member in the house have a bank account? Question relevant when: \${plot_harvested} =2	1	Yes	
		2	No	
resp_ineligible	Thank you for your time! Question relevant when: \${plot_harvested} =1 or \${bank_account} =2			
respondent_available > resp_eligible Group relevant when: ( \${resp_available} =1 or \${respcorrect_available} =1) and ( \${plot_harvested} =2 and \${bank_account} =1)				

Field	Question	Answer
intro_pes <i>(required)</i>	Hello, my name is [surveyor_name]. I am a surveyor from J-PAL South Asia, an NGO based in Mohali. A colleague of mine surveyed you a few days ago. Just to remind you about our organization: J-PAL SA conducts research on topics related to development. Our study is being conducted in Bathinda and Faridkot and we are working to collect information on agricultural practices of farmers in Punjab. We have come to you a second time to give information on a voluntary programme that would involve a payment at the end for you.	1 Yes
		2 No
	May we come in and talk to you about the programme?	
resp_no	Thank you for your time! <i>Question relevant when: \${intro_pes} =2</i>	
respondent_available > resp_eligible > Consent <i>Group relevant when: \${intro_pes} =1</i>		
note_consent0	Introduction: Hi, my name is [surveyor_name]. We have come to you because you are an adult engaged in paddy and wheat growing in Punjab, and previously took part in study activities in September or October 2019.	

Field	Question	Answer
note_consent_keyinfos	<p>I will read out some information now and you should ask questions about anything you do not understand. This information is important and will help you decide whether you want to be a part of this study. I will be happy to answer them for you.</p> <ul style="list-style-type: none"> <li>• The purpose of this study is to understand farmers' decisions on how they maintain their fields, along with agricultural inputs and outcomes.</li> <li>• I am here to give you information on a voluntary program that offers financial support for harvesting paddy – it will take approximately 30 minutes for me to discuss this part of the research study with you.</li> <li>• In 2-3 months, you will be asked to complete a follow-up survey, which will take approximately 45-60 minutes.</li> <li>• We expect you to be in this research study until December 2019.</li> <li>• The primary risk of participation is a breach of confidentiality, where parties other than the study team gain access to the data, including your stubble removal practices. . The study team has taken precautions to avoid a confidentiality breach, including removing your name and other identifying details from your answers as soon as feasible, and replacing that information with a unique ID number.</li> <li>• Whether or not you take part is completely up to you and you may choose to not take part. You may also agree to take part and later change your mind. This is your right and the decision will not be held against you.</li> </ul> <p>Do you understand up to this point? If there is anything that you have not understood, please feel free to ask me.</p>	

Field	Question	Answer
 note_consent_uniqueinfo_t2a	<p>I will now tell you what our visit today and what will happen if you choose to participate in the programme.</p> <ul style="list-style-type: none"> <li>• If you choose to participate in the voluntary programme I am here to offer you, you will be compensated at Rs. 800 per acre you clear during the paddy harvest using approved methods, up to a maximum of Rs. 8,000. In a few weeks, an enumerator will come to your field and perform a field monitoring check.</li> </ul> <p><i>Question relevant when: <math>\\$ \{treatment\} = 1</math></i></p>	
 note_consent_uniqueinfo_t2b	<p>I will now tell you what our visit today and what will happen if you choose to participate in the programme.</p> <ul style="list-style-type: none"> <li>• If you choose to participate in the voluntary programme I am here to offer you, you will be compensated at Rs. 1600 per acre you clear during the paddy harvest using approved methods, up to a maximum of Rs. 16,000. In a few weeks, an enumerator will come to your field and perform a field monitoring check.</li> </ul> <p><i>Question relevant when: <math>\\$ \{treatment\} = 2</math></i></p>	
 note_consent_uniqueinfo_t3a	<p>I will now tell you what our visit today and what will happen if you choose to participate in the programme.</p> <p>If you choose to participate in the program, you will be compensated Rs. 800 per acre you clear during the paddy harvest using approved methods, up to a maximum of Rs. 8000. In a few weeks, an enumerator will come to your field and perform a field monitoring check. If you choose to participate in the program, you will be provided with 25% of the amount (Rs. 200 per acre of cultivated paddy, up to a max. of Rs. 2000) in cash right now.</p> <p><i>Question relevant when: <math>\\$ \{treatment\} = 3</math></i></p>	

Field	Question	Answer
note_consent_uniqueinfo_t3b	<p>I will now tell you what our visit today and what will happen if you choose to participate in the programme.</p> <p>If you choose to participate in the program, you will be compensated Rs. 800 per acre you clear during the paddy harvest using approved methods, up to a maximum of Rs. 8000. In a few weeks, an enumerator will come to your field and perform a field monitoring check. <div><div></div></div> note1_intro_t2a	Our organization is working on agricultural and environmental issues and we want to help farmers manage paddy stubble after the paddy harvest this season. I am here to share details of a program that we are introducing to some farmers in this village during the paddy crop season in the month of October and November 2019.		
<div><div></div></div> note2_intro_t2a	To encourage farmers to manage paddy stubble in an environmentally-friendly manner, we will offer you an agreement contract that will pay you if you do not burn your paddy field(s) this season. We will compensate you at a rate of Rs. 800 per acre (up to a max. of Rs. 8,000). You may use any alternate methods of managing the residue. Other than burning the stubble, we do not place any condition on what this method should be.		
<div><div></div></div> note3_intro_t2a	This monetary compensation will only be given to you if a monitor, during the months of October and November, assesses that that your paddy field has not been burnt. If you are interested in participating, I will explain the terms and conditions of the contractagreement to you that will help you decide whether you want to enroll in the programme or not.		

Field	Question	Answer
 note4intro_t2a	<p>If you are uncertain about signing the agreement because you are unsure whether you would be fulfilling the conditions of the contract, let me remind you that there is no harm in participating in the programme. If you burn, you will not be penalized in any way by us. If you do not burn, you will be given the reward. By signing you are only giving yourself a chance to win money.</p> <p>If you would like a family member in the house to help you make a decision and listen to the details of the programme, please feel free to invite them now. Please remember that whoever signs the agreement must have a bank account to enable payments at a later date.</p>

Field	Question	Answer
 note1_handout	This document provides details on some of the items in the agreement and is to help the enrollee farmer with complying to the terms and conditions of the agreement.	
 note2_handout	<p>Monitoring visits</p> <p>i. The enrollee farmer is expected to initiate monitoring for all plots, with a maximum of two requests to J-PAL. All plots must be covered through these two requests.</p> <p>ii. Each request will result in up to two visits by J-PAL monitors. The second visit will only be performed if J-PAL determines that it is necessary to assess burning.</p> <p>iii. In addition to the requested and scheduled visits, J-PAL can also make unannounced visits to the plots for checks.</p>	
 note3_handout	<p>When to call for monitoring:</p> <p>The enrollee farmer should call once all the pre-sowing work related to stubble has been completed on the plots covered under the request. This means all activities related to stubble like removing or processing of stubble must have been completed and no further managing of stubble is required before sowing. In general, requests should be made at least four days before sowing. The request can occur if any of the following applies:</p> <p>i. After the straw and stubble have been completely removed from the plot but no later than 4 days before sowing.</p> <p>ii. After the straw has been rolled into bales/bundles but no later than four days before sowing.</p> <p>iii. After the straw/stubble has been mixed or blended into the soil but no later than four days before sowing.</p> <p>iv. If using the Happy seeder or mulcher: once sowing preparation is complete but no later than four days before sowing. In these cases, a second monitoring visit will be made post sowing.</p>	

Field	Question	Answer
 note5_handout	Remember, up to two requests can be initiated. If some plots are ready, call to schedule the first monitoring, keeping in mind that any plots not covered under the first request have to be monitored as part of the second request. If all plots are ready for monitoring, they can be inspected in a single visit.	
 note6_handout	These are the numbers for calling.  Surveyor: Point towards the phone numbers provided on the handout.	
 note7_handout	What counts as burning?  The agreement requires that farmers do not burn any of their plots. This will be broken if any of the following (or any other form of burning) are detected by the monitor. The farmer will not be eligible for payment if any of the following is detected during monitoring. <ul style="list-style-type: none"> <li>• Burning of the upper layer of loose straw left behind by the harvester.</li> <li>• Burning of the standing stubble.</li> <li>• Burning of straw collected in one part of the plot.</li> <li>• Burning as mentioned above on any of the plots.</li> </ul> Please do not call us if you have burnt any of your fields.	
 note8_handout	Lastly, I am now going to read out some very important information, please listen carefully.	

Field	Question	Answer
note9_handout	<p>1. J-PAL SA is not related to any government in any manner. The failure of the enrollee farmer to meet any term or condition in the agreement will not attract any penalty or fine, and no legal action will be taken. This is clearly stated in the agreement. We are only trying to find if this a good way to help the farmers with resolving the stubble issue. We can't impose any fines or penalties since we are not related to government.</p> <p>2. The only consequence of not fulfilling any of the term or condition in the agreement will be that farmer will become ineligible for payment of amount as mentioned in the agreement.</p> <p>3. In case the farmer does not request monitoring as specified above, J-PAL will not be liable to pay any amount as mentioned in the agreement. Decision on payment to be made will only be taken once all the plots have been fully monitored.</p> <p>4. If after the first monitoring visit and after analyzing the observations recorded, the J-PAL SA team ascertains that burning happened in even one of the plots, no further monitoring visit will be conducted. In this case, the farmer will be ineligible to receive the payment.</p> <p>5. At the time of the monitoring visit, we may also request you for bank account details. The bank account transfer is the fastest and easiest way to transfer the amount. After the monitoring has been completed for all the plots and it is assessed that burning has not happened on any plots, the payment will be made directly into the account.</p> <p>6. The enrollee farmer should keep the agreement and information handout safe for use later. The ID and phone numbers given on them are to be used for calling.</p>	

Field	Question	Answer	
<div><div></div></div> participate_final (required)	Would you like to enrol in our programme?  Surveyor: If they seem uncertain or hesitant about signing the agreement, say:  "If you are uncertain about signing the agreement, let me remind you that you will face no penalty for going against the agreement. Even if you feel you might burn, there is no downside to signing the agreement. We will just reward you in case you decide not to."	<div><div>1</div>Yes</div> <div><div>2</div>No</div>	
<div><div></div></div> note_participatefinal	Surveyor: If the respondent says yes, proceed to fill out the details in two copies of the agreement. One copy is for you to bring back and the other is for the respondent to keep.  Question relevant when: \${participate_final}=1		
<div><div></div></div> contract_signatory (required)	Surveyor: Does the person whose name is on the agreement have bank account and are they willing to be the one to sign the agreement?  Question relevant when: \${participate_final}=1	<div><div>1</div>Yes</div> <div><div>2</div>No</div>
